

Sumo Logic Names Stewart Grierson Chief Financial Officer

December 6, 2021

Seasoned Executive with Broad Financial and Operational Experience Joins Sumo Logic to Help to Drive its Next Stage of Growth

REDWOOD CITY, Calif., Dec. 06, 2021 (GLOBE NEWSWIRE) -- Sumo Logic (Nasdaq: SUMO), the pioneer in [continuous intelligence](#), today announced the appointment of Stewart Grierson as Chief Financial Officer, effective Dec. 13, 2021. As a member of the company's senior executive team, Stewart will focus on operational efficiency, financial management, and investor relations to drive Sumo Logic's long-term growth.

"As every company increasingly embraces a digital-first strategy, Sumo Logic is strongly positioned as a real-time data analytics leader that can help them build, run and secure their digital applications and multi-cloud infrastructure," said Ramin Sayar, president and CEO, Sumo Logic. "I'm thrilled to have Stewart join Sumo Logic and am excited to partner with him to capture the large and growing market opportunity in front of us."

Stewart has been leading finance and operations teams of public and private technology companies for more than 25 years. He joins Sumo Logic from Delphix, a leader in DevOps software, where he served as CFO. In addition, Stewart previously spent 8 years as CFO at ArcSight, the first generation SIEM leader. This experience in two of the primary markets that Sumo Logic competes in, Security and Observability, will allow Stewart to quickly come up to speed on the company's strategy and operational plans. Earlier in his career, Stewart worked at KPMG and holds a bachelor's degree in economics from McGill University.

"Today's digital economy requires fully integrated and automated applications and infrastructure that operates reliably in a multi-cloud environment to quickly deliver new software features, optimize customer experience, and maximize operational efficiencies, while managing security and compliance risk," Grierson said. "The Sumo Logic Continuous Intelligence Platform allows customers to quickly identify and respond to security and compliance risks and pinpoint breakdowns across applications and multi-cloud infrastructures that negatively impact customer experience. It is a substantial market opportunity, and Sumo Logic is well positioned to be a leader with its cloud native unified platform, rich machine learning algorithms and proven ability to manage data at scale. I'm excited to join the team as we tackle the next phase of growth for the company."
